Software for Wound Healing Excellence

WoundExpert® is a sophisticated, yet simple-to-use, web-based EMR for wound care management. Integrated clinical, financial, and regulatory solutions give clinicians the tools to enhance patient care and facility performance. We collaborated with world-class designers to create an engaging and adaptive new user experience that intuitively guides you.

WoundExpert’s end-to-end functionality offers dynamic real-time collection, analysis, and visualization of your wound care program. Features include data collection, documentation, scheduling, assessment, revenue tracking, benchmarking, and electronic patient charting to support regulatory requirements. WoundExpert is configurable to your facility’s needs and can be easily integrated with your hospital’s patient information system, enabling reliable and HIPAA-compliant delivery of patient data.

Clinical
- Wound assessment and care planning documentation
- Physician Progress Notes, orders, and prescriptions
- History and physical exam
- Integrated wound image calibration

Administrative
- Flexible scheduling
- Direct ordering for patient supplies
- Outcomes and benchmarking reports
- Comprehensive facility operational reports

Financial
- Advanced reporting and ancillary revenue tracking
- Insurance authorization tracking and recording
- Facility and physician CPT code automation
- Supports regulatory compliance documentation

Client Support
- Support available 5 days a week, 12 hours a day
- 95% response rate within 24 hours
- Pre-implementation planning and on-site training
- Continuing education and training

By the Numbers

3,000+
facilities rely on Net Health each day

$2B +
health services supported each year

Connecting All Facets of Wound Care

WoundExpert is more than a software solution; it is your trusted resource for meeting the challenges of managing a wound care program. Our team conducts a thorough assessment of your facility’s workflow, works with you to tailor the software solution appropriately, provides on-site training during start up and go-live, and then serves as an ongoing resource for support. We continually monitor the regulatory landscape and industry trends to drive compliance and the most up-to-date clinical standards. We identify new technologies and partner with industry leaders to enhance functionality and usability. We incorporate client feedback to continually improve the user experience.

Industry Connections

We partner with wound care industry leaders to provide new efficiencies within our software—streamlining processes to allow clinicians to focus more on patient care. For example, we integrated patient supply orders for negative pressure wound therapy, cell and tissue based products, pneumatic compression pumps, and wound care product supplies.

Integration

We are the industry leader in integration, maintaining hundreds of interfaces connecting our software with hospital-wide EMRs, HIEs, and technology partners. We ensure a safe, reliable and HIPAA compliant exchange of patient data using industry standards. Our software has imported 2.2M patients, sent 3.3M charges, and transmitted 17M clinical documentation records.
