

Know your Employee Health performance with at-a-glance KPIs and take action.

It's not static reports; dig into the dashboard analytics that can help you reduce costs and increase compliance. Reallocate the time you used to spend running reports and supercharge AgilityEH with **Business Insights**.

Spot trends in the root causes of your workplace injuries | Catch gaps in employee compliance | Staff clinics efficiently to curb employee wait-times

Visualize data in four key areas:

Injuries and Illnesses

Find opportunities to reduce costs by identifying and mitigating injury root causes leading to lost time and money.

Compliance

Stay on track with your compliance goals and identify departments or populations that need attention.

Productivity

With insight into your busiest and slowest times, keep employee wait time at a minimum without overstaffing.

Cost

Monitor year-over-year trends and detect areas of rising cost.

See the data that tells you the most actionable story. Analyze by locations, departments, dates and more. Glean insight in seconds, not minutes.
