

Comprehensive Solution for Home Health Therapy Providers

Optima Therapy for Home Health is a therapy management solution for contract therapy companies serving home health agencies. Built by the industry leader in therapy software, the solution enables therapists to easily document care for homebound patients with a tool they already know and use in other settings. With enterprise capabilities that streamline operations and simplify document sharing, communication and billing, the solution empowers contract therapy companies to build successful home health agency relationships and manage the delivery of therapy across their entire business.

Key Benefits

Familiar, scalable system for therapists, regardless of where they provide therapy across the care continuum (skilled nursing, assisted living, outpatient or home settings)

- Reduce learning curve for therapists' familiar with our industry-leading therapy management software
- Streamline operations with centralized intake and scheduling that makes it easy to manage therapy across your entire business, including multiple operating units
- Improve visibility to KPIs and see graphical trends within and across business lines

Secure customer portal provides the ability to easily share documents and patient data (i.e. referrals, patient status, invoices) with home health agency clients

- Eliminate workarounds and manual processes that cause delays and errors from duplicate data entry
- Improve communication so everyone is always on the same page about a patient's status and billing
- Enjoy one central location to engage and work with home health agencies, eliminating the need for therapists and staff to use multiple home health EMRs across your client base

Flexible billing provides the ability to assign different rates and set up individual contracts appropriately

- Improve accuracy of invoices by easily matching contract requirements for therapy services provided
- Save time processing payroll with the ability to assign rates by the hour and/or visit based on visit and employee type
- Remain competitive with ability to expand options for billing rates

Key Capabilities

Customer Portal

- **Stay Connected** – Provide and receive key information from home health agencies through a free, easy-to-use and secure web-based portal.
- **Streamlined Referral Management** – Home health agencies can easily submit new patient referrals online and track the status, so you can efficiently manage the intake process and grow your business.
- **Documentation Sharing** – Allow your home health agencies to electronically track your therapists' treatment in one place and easily process and print multiple documents in bulk.
- **Patient Schedule Management** – Coordinate patient schedules by sharing scheduled therapy visits and allowing home health agencies to add their own appointments.
- **Constant Communication** – Easily communicate with home health agencies directly about their patients through secure messaging.
- **Business Intelligence** – Home health agencies can check staff licenses and monitor unique metrics.
- **Invoice Processing** – Run all your billing invoices and easily provide them to home health agencies as downloadable files.

Care Operations Management

- **Assign Therapist and Assistant at Intake** – Start care quickly by associating the right clinicians with newly referred patients.
- **Patient-Associated Messaging and Tasks** – Keep the entire care team informed and on-track at all times with important tasks assigned and patient-related secure messaging visible.
- **Centralized Scheduling** – Easily identify visit type by color coding, view therapists' schedules across all locations and see all disciplines scheduled to treat a patient.
- **Order-Driven Scheduling** – Ensure visits are scheduled within order guidelines to

maintain compliance.

- **Business Intelligence** – Monitor unique metrics such as referral conversion rates, visit utilization trends and functional outcomes.

Point of Care

- **True Mobility** – Enjoy anytime, anywhere access to patient records and documents, even without an Internet connection, from virtually any device—Apple®, Android™ or Windows®.
- **Patient Digital Signatures** – Capture a patient's signature electronically to verify visit completion.
- **Home Health-Specific Clinical Library** – Improve documentation efficiency by utilizing content and rules specific to home health, such as tracking 30-day reassessments versus 60-day recertifications.
- **Documentation Compliance** – Ensure scheduling and treatments are compliant with the appropriate home health content and rules, such as supervisory visits, order compliance and electronic signatures.
- **Self Scheduling and Orders Validation** – Allow therapists to schedule visits while ensuring they are within order guidelines to maintain compliance.
- **Simplified Visit Entry with Mileage Tracking** – Save time tracking visit start and end times, as well as mileage for more accurate reimbursement.
- **Orders Management** – Have your therapists log and track orders during the initial evaluation and during the episode of care.
- **OASIS Assessments** – Document the appropriate OASIS questions at the start of care and during re-certification, follow up, transfer and discharge.

Billing

- **Visit-Based Invoices** – Assign different billing rates based on visit and employee type for accurate billing and set up individual contracts appropriately.
- **Home Health Visit Details Invoice Report** – View all details needed about charges for your home health visits to ensure fees are correct.
