

Optima Therapy for SNFs— Leading Solution for Therapy Providers for Over 25 Years

Optima Therapy for SNFs is the industry-leading therapy management solution for contract therapy companies and skilled nursing and assisted living facilities. We help therapists produce complete documentation right from the start, which reduces clean-up time at month-end-close. Our precise billing capability enables faster and more accurate reimbursement and ensures compliance. Our proactive approach to regulatory changes, such as PDPM, provides peace of mind that you will always be compliant and thrive.

Key Benefits:

- **Complete documentation** reduces clean-up time at month-end-close. Automatic application of codes and modifiers, as well as programmable alerts and guardrails keep your documentation on track right from the start.
- **Precise billing** enables faster and more accurate reimbursement and ensures compliance. Configure individual payer plans to support different contracted rates, require specific modifiers to improve your billing process and generate reports that compare by payer groups.
- **Proactive regulatory readiness** ensures you will always be compliant and thrive. We give you the resources and education to tackle industry changes, such as PDPM, months in advance.
- **Highly configurable system** meets your unique requirements and improves staff/therapist efficiency and data security.
- **Efficient scheduling** saves time and gets your therapists matched with the right patients at the right time.
- **Measurable outcomes** help you negotiate better rates with SNFs and payers.
- **Powerful insights** with role-based dashboards fuel actionable decisions and save time.
- **Flexible mobility** improves therapists' productivity and reduces non-billable documentation time.
- **Expansive interoperability** saves time and improves precision of patient records.
- **Effective support** gets you back faster to running your business and providing quality care.
- **Innovative market leader** with best-in-class therapy software that instills confidence knowing you're backed by a trusted partner.
- **Smooth implementation** with a dedicated client-service team that guarantees a successful transition.
- **Secure videoconferencing and messaging** with our Telehealth portal will expand your ability for patient care.

Care Operations Management

Admissions

- Save time on admissions with minimally required fields and ADT integration with major SNF EMRs such as PointClickCare, MatrixCare, AHT and more.
- Makes documents accessible in the patient record with electronic document storage.
- Electronically verifies insurance to prevent ineligible admissions.

Scheduling

- Improve your scheduling and daily administration with at-a-glance views by patient or discipline.
- Create more profitable schedules in less time with templates that automatically optimize treatment plans, therapist availability and patient preferences.
- Never overschedule with a system that constantly calculates scheduling capacity and alerts you when a therapist is in danger of reaching his or her limit.

Reporting and Analytics

- Provides pre-built reports to effortlessly monitor and evaluate operations.
- Drives decision-making with real-time data in role-based dashboards.
- Gives snapshots of operational areas and drills down into the data to identify needs—so you can improve productivity.

Point of Care

Documentation

- Saves time documenting in real time with intuitive navigation and simplified screens.
- Patient information and care plan front and center.

- Provides built-in, clinical content—making it easy to document the initial evaluation and ongoing visits.

Compliance

- Provides built-in compliance alerts and guardrails that prompt therapists.
- Keeps you ahead of regulatory changes with experts who ensure that you, and the software, are always up-to-date.
- Fully integrates an easy-to-use, time-saving Physician eSignatures tool, CliniSign.

Mobility:

- Delivers anytime, anywhere access to the system.
- Provides on-demand access to patient records—even without Internet connection.
- Operates on any device—Apple, Android or Windows.

Billing

Eligibility and Authorizations:

- Boost reimbursement with PT, OT and ST billing software that verifies payer benefits ahead of time and allows you to customize rules based on payer preferences or invoice requirements.

Invoicing and Claims:

- Automatically transmits all charges and codes to the billing software.
- Ensures claims and invoices are complete and correct, with built-in validations so you can bill faster and keep your revenue stream flowing.
- Allows you to submit electronic claims.

Denials and Appeals

- Provides the ability to easily track and manage ADRs with our Appeals Management tool.
- Allows you to uncover trends in denial types and sources as they're unfolding, so you can make adjustments before it's too late.
