

# Everything you need in one solution to keep your rehab therapy facility moving.

Net Health Therapy for Hospital Outpatient is your all-in-one, cloud-based outpatient EMR and billing therapy solution. Move through the day with powerful confidence in patient flow, compliance, and revenue.

## Scheduling

-  Keep on top of changes with easy drag-and-drop capability
-  Visualize provider availability based on therapists' scheduling templates
-  Reduce no-shows and cancellations with automated appointment reminder calls, texts or emails (optional)
-  Create filters to view schedule by therapist, clinical team, discipline, or visit type
-  Easily identify visit specifics with customizable color-coding
-  Interact with patients in real-time using secure Videoconferencing for Telehealth (optional)
-  Notify therapist of patient's arrival with in-app alerts
-  Quickly book recurring appointments

## Operations Management

-  Quickly access billing, productivity and operations reports
-  Analyze trends with patient attendance metrics and visit management reports
-  Integrated e-faxing of Plan of Care (POC) for physicians' signatures (optional)
-  Monitor need for all re-authorizations and re-certifications
-  Track status of Plan of Care (POC) signatures
-  Compare facility performance at the corporate level
-  Utilize billing alerts to prevent over-billing and under-billing

## Documentation

-  Maximize information exchange and patient engagement with the Patient Portal
-  Adapt easily with an intuitive, familiar SOAP note format designed with therapists' input
-  Document immediately with prebuilt templates organized by body part or skill area
-  Stay Medicare compliant through customizable alerts and reporting
-  Take advantage of industry leading functional assessment tools
-  Meet physical therapy (PT), occupational therapy (OT), and speech-language pathology (SLP) documentation needs for adult and pediatric populations
-  Adjust preset documentation workflows according to your facility and user preference
-  Verify charges with daily reporting to prevent billing errors

## Consider These Optional Integrations to Boost Your Therapy Business

### Appointment Reminders

Reduce no shows and cancellations with automated appointment reminder calls, texts or emails.

### E-faxing Solution

Eliminate paper and save time with built-in e-faxing.

### Focus on Therapeutic Outcomes (FOTO)

Boost patient satisfaction and promote outcomes to referral sources with access to benchmarks, analysis, compliance and reporting tools.

### Single Sign-On (SSO)

Improve security and streamline user management by accessing ReDoc using your facility's existing authentication policies and login procedures.

### Patient Eligibility Verification

Save time verifying patients' eligibility for services from within the system.

### Home Exercise Program (HEP)

Improve patient engagement with easy online personalized home exercise plans.

### Videoconferencing for Telehealth

Increase access to care for patients with travel limitations - interact with patients in real-time over a secure audio/video connection.

## The superior cloud-based platform offers high-functioning simplicity.

- Minimal hardware requirements
- Efficient implementation
- Seamless software updates
- Secure, anywhere access on a computer or tablet
- Built-in backup and recovery

**Training and support from implementation through on-boarding any new staff.**

### Dedicated project manager during implementation

### US-based phone and email support

### 24/7 access to online training at Net Health University

- Role-based software training
- Functionality reviews of new releases
- Best practices for compliant documentation

## Not sure exactly what your practice needs for success?

Don't worry, we have several plans for you to choose from to fit your needs, your size and your budget. For more information contact us at [ReDoc@nethealth.com](mailto:ReDoc@nethealth.com), 800.411.6281, or visit [nethealth.com](http://nethealth.com).
